AMENDMENT and RESPONSE

Sir:

This Amendment is believed fully responsive to the Examiner's Office Action of February 22, 2005. No extension of time is believed required for this response to be considered timely to the Office Action in that it set a three-month period of time for reply. However, to the extent an extension of time is required for a timely Amendment and Response to be considered, the applicant hereby requests the same and the Commissioner is requested to provide the number of months required for the extension so that the reply is timely. The Commissioner is also

authorized to charge applicant's attorneys' deposit account No. 02-2105 for any such extension of time fee.

IN THE APPLICATION:

Kindly amend the application as indicated below and consider the Remarks section hereof. It is respectfully submitted that the present application teaches a new, i.e., novel and nonobvious invention, entitled to a patent. In the absence of an uncovering by the Examiner of additional prior art, the present application is believed allowable. The prior art of record, either when individually considered or even if combined together, neither expressly teaches nor impliedly suggests the invention as set forth by the now-claimed invention. Prompt and favorable action is requested and believed fully warranted. Indeed, the Examiner advised in the first Office Action that the claims were objected to because of minor informalities but that all claims, 1-17, would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. Section 112, 2nd paragraph, as set forth in the Office Action. Applicant has amended the claims as advised and, thus the claims are now believed allowable.
